

DIAL INDICATOR KIT WITH EXTENSION RODS

PRECISION AND PRACTICALITY IN EVERY MEASUREMENT! Tools for Bearings

Developed to offer safety, performance, and convenience, the BGL Dial Indicator Kit with Extension Rods is the ideal solution for monitoring the axial displacement of Hydraulic Nuts from the HMV and HMVC series.

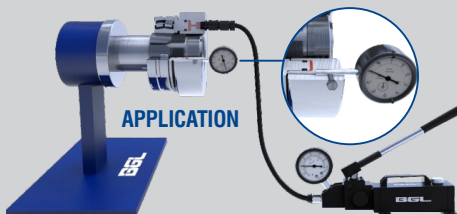

Available in both **analog and digital versions**, the kits include everything you need for reliable and efficient measurements.

Each kit comes with **4 Extension Rods** of 10, 20, 30, and 40 mm, as well as a **spherical contact tip**, allowing precise measurements at different depths and assembly conditions.

Packed in its own protective case, the set ensures protection, organization, and practicality for transport and daily use.

	RCA 10 (Analog) 10 mm Stroke + Extension Rods	RCA 20 (Analog) 20 mm Stroke + Extension Rods	RCD 12,7 (Digital) 12,7 mm Stroke + Extension Rods	RCD 25,4 (Digital) 25,4 mm Stroke + Extension Rods
SUITABLE HMV/HMVC	HMV 10E until HMV 62E	HMV 10E until HMV 236E	HMV 10E until HMV 118E	HMV 10E until HMV 236E
	HMV 68E until HMV 84E		HMV 125E until HMV 160E	
	HMV 90E until HMV 110E		HMV 180E until HMV 224E	
	HMV 125E until HMV 150E			
	HMV 180E until HMV 190E			
	HMV 212E until HMV 224E
